Ministers Intend to Resign.

LONDON, April 13.—The London correspondent of the Manchester Guardian says: "I have good reason for saying that the ministers have decided to resign as soon as the Queen returns to England from the continent." Lord Beaconsfield will interview the Queen on Sunday, and the ministry will probably resign on Tuesday next.

Frightful Accident near Harrisburg.

Harrisburg April 15th.—The Pennsylvania Steel Works at Stelton, three miles below this city, was a scene of frightful accident at 5 o'clock this morning. While the men were at work in the mill where the steel is made, the ratchet that controls the movement of a large vessel that contains molten metal broke and turned retort upside d wn, the contents were poured into th pit underneath in and around which about eight men were working. George Yost and A. Westbrooko were so badly burned that their lives are despaired of. Monroe Miller, Simon Martin, George Horning, and one or two others, were also badly, but not fatally burned.

The Lease of Georgia Rail Roads.

LOUISVILLE KY. April 15th.—Private despatches from Savanah received here state that the Georgia Central Railroad and Georgia Railroad have leased to the Louisville and Nashville Railroad with the privilege of purchase that portion of the Western Railroad of Alabama, extending from Montgomery to Selma. The lease was ratified by the Louisville and Nashville roads at its special meeting in this city last Saturday, but the matter has been kept secret. The Georgia Railroad Board of Directors ratified and confirmed the lease Tuesday, and it was ratified by the Georgia Central the same day.

Sale of the Greenville Railroad.

COLUMBIA, S. C., April 15.—The Greenville & Columbia Railroad was bought to-day by W. A. Courtenay, of Charleston, for $2,963,400.

Missouri Republicans for Grant.

LEDALIA, MO., April 15.—The Republican Convention after electing delegates to Chicago adopted resolutions reaffirming the principles of the Republican party, and endorsing the administration of General U. S. Grant when President and instructing delegates to Chicago to vote as meet on all questions and for General U. S. Grant as a candidate for President.

Wooing of Princess Stephanie.

The wooing of the Princes Stephanie is described by a Brussels correspondent as having been very practical. At an entertainment at the palace Rudoph and the Princess found themselves for a moment alone. The Prince, seizing the opportunity, and preserving the courtly style which is nowhere more rigorous than at Vienna, said: 'Madame, will you have me for your husband?" The reply was simplicity itself, "Yes, Monseigneur." "Your Highness's answer makes me very happy," rejoined the Prince; and she added, "And I promise you that under all circumstances I will do my duty." This was all, and they went out together to rejoin the royal family, when Prince Rudolph said to the King, "Sire, with your Majesty's permission I have asked the Princess Stephanie to accept me as her husband. I have the pleasure to announce to your Mejesty that my proposal has been accepted. "I am happy, Monseigneur, to receive you as my son-in-law," answered the King The Princess' political education has been wholly conducted by her father, and, speaking of her lately to a high personage, his Majesty remarked. "I have taught the Princess that the first sentiment which ought to inspire one when one is called upon to reign is respect for the will of the nation."

Is Mars Inhabited.

There is no other planet of the solar system, says *Science for All*, which offers so close an analogy to the earth as Mars. The telescope reveals to us the figures of broad tracts of land and expenses of sea upon its surface. The durations of his day and night almost coincide with our own. His exterior experience the alternating changes of the season. His nights are Illuminated by two satellites, which present all the phenomena of our own moon, and more frequently, owing to their greater velocity. An atmosphere probably surrounds this planet; in fact, the existence of air is indispensable to his other features. Hence, the inference that Mars is a habitable globe appears a very obvious and fair conclusion, and it would be inconsistent to imagine that this planet, provided, apparently, with all the requisite natural facilities to render life a necessary and desirable feature of his surface, is a sphere of desolation, a mass of inert matter, which, though conforming to the laws of gravitation, is otherwise serving no useful end as the abode and sustenance of animated creatures. It is far more in accordance with analogy and rational speculation to conclude that Mars is the centre of life and activity, and that his surface is teeming with living being.

How Women Should Dress.

Doctor Richardson, an English physician, very celebrated on account of his abilities recently delivered a lecture in London on Health and Dress—a relating to womankind—in which he expressed his opinion freely, pointing out the grave errors women commit in the manner and mode of dressing. The eminent lecturer considered it the duty of every woman to cultivate good fashion, and make herself becomingly beautiful as possible, and at the same time protect herself against all waste of physicial power by shunning every contrivance that would in the least lead to that result.

He denounced corsets, waistbands, garters and tight shoes, and maintained that the dress should be worn loose and the weight borne by the shoulders He endorsed the advice of the great Surgeon Cline, to an anxious mother who once consulted him as to what she should do to prevent her daughter from becoming deformed, who replied let her have no stays and let her run about like the boys," and he would add, "Let the mothers of England clothe the girls precisely as they clothe the boys, permitting knickerbocker, if they like, and let them add the one distinguishing mark of light loose flowing gowns, and the girls will grow into women as vigorous as healthy, and as well formed in body as their companions of the sterner sex."

The lecturer impressed on his hearers the importance adapting clothing to season. Warm clothing ought to begin in September or early in October, and ought not be left off until the close of April. He recommended silk or light fleecy flannel for underwear, and concluded that thick heavy flannel and every material that absorbed and held the wastery excretions from the skin were at all times bad. Heavy clothes were hard and had really no necessary connection with warmth. Liget and fleecy outer garments were best for cold weather.

Dr. Richardson criticised very severely the permanent water proof, "which shuts up the rain which distills from the body, at the same time that it keeps out the rain which falls from the clouds. He considered that white color was the best even in cold weather, while it was admittedly the best in summer. Black was the worst of all colors, and for all ordinary occasions light gray out to take the place of black for ought covering of the body.

Theo. B. Kingsbury.

Oxford Torchlight.

A correspondedt of the Raleigh *Observer* has mentioned the name of Theo. B Kingsbury as a candidate for Superintendent of Public Instruction. While it is not our province as a public journalist, to further the claims of any individual prior to his nomination, we cannot fail to express our hearty appreciation of Mr. Kingsbury's labors for the State, and his peculiar fitness for such a position, and of all the the good men in North Carolina. Mr. Kingsbury would be the universal favorite of Granville county. Besides this the press of the State is equal to any in the Union. Its fights upon radicalism in all its forms, has been able and effective, and Theo. B. Kingsbury has ever been found in the front of the ranks of this mighty army, wielding his sword (the pen) with the fearlessness of a martyr.

New King of R. R. Accident.

An improved king of railroad accident has been invented in Connecticut—the most inventive State in the country. An express train fell through an embankment, tumbled two express cars, a mail and baggage car and two passenger cars down the bank. The baggage car reared up on the end of the mail car, and the rest of the cars crashed against each other. But not a person on the whole train was hurt and some of the passengers in the sleeping cars slept through it all. It was caused by drawing off the water from a pond next to the embankment. If the Yankee who invented the plan of doing it at so little loss of life or limb has not patented it, it would be well for railroad managers in other States to adopt it; if he has patented it, they should at once secure county and State rights.

THE Boston *Herald* says;

"The state Senate adopted, yesterday the House resolves for constitutional amendments to prevent the disfranchisement of soldiers and sailors becoming paupers, and in favor of biennial elections of state and legislative officers. It also refused to indefinitely postpone a bill to prevent double taxation of certain property, which adopted in place of the House bill upon the same subject. The insurance excise tax bill was advanced a stage by this oranch. The House amended and engrossed the tramp bill, and discused the resolve regarding the state printing contract.

The Syndicate about to take Possession.

Charlotte Observer.

Mr. Best and his associates, Messrs. Fish, Grace and Tappan, left New York night before last and are expected to go up the Western North Carolina Road this morning to attend the meeting of the private stockholders of the road at Hickory to-day. It is understood that these gentlemen will make efforts to purchase all the private stock they can. It is probable that Mr. Best will make some announcement of his policy at this meeting, as he goes on to Asheville in a few days with his family, and takes charge of the road as soon as the transfer can be made, and the necessity for reserve will no longer exist. The owners of stock, we understand, are not yet decided as to whether they will sell at all, but of course thi [will depend greatly on the term offered by Best.

Wanted Information.

Detroit Free Press.

At 11 o'clock the other night a policeman on Beaubien street came upon a man pounding vigorously upon the door of a dwelling-house, and he asked what he wanted there. The pounder was pretty well set up. He descended the steps, went close up to the officer and softly whispered in his ear:

"It's my—my own abode, and I w-want to get in."

"But why don't you call out?" asked the blue coat.

"B-because I don't want to g-give myself away. I want to get into the house b-before the jawing commences. I want my wife to think it's s-somebody else."

"Well, go ahead, but don't arouse the neighbors."

The officer sauntered on, but in about ten minutes he encountered the tipsy citizen on the other side of the block. The man was thoroughly drenched with cold water, and had lost his hat.

"Hello! didn't you get in?"

"N-not quite."

"Couldn't awaken your wife, eh?"

"The t-trouble was," whispered the man, as a big shiver galloped over him, "the t-trouble was she was awake all the t-time!"

"And she deluged you from a second story window?"

"I-I'm not 'zactly clear as to whether it was a thunder-shower or only a pitcher of w-water, and I thought I'd n bunt you up and ask you if th-thunder showers ever come in the night, and if lightning ever knocks a p-perfect gentleman off his own door-steps?"

Mrs. Winslow's Soothing Syrup.

Rev. Sylvanus Cobb thus writes in the *Boston Christian Freeman*—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button."

And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.

GRANTISM IN KENTUCKY.

STRONG ANTI THIRD TERM FEELING.

Persuading Dissenters with Knock-Down Arguments Straight from the Shoulder.

New York Sun.

LOUISVILLE, KY., April 10.—Republican primaries were held yesterday in all the wards in this city and in Jefferson county to choose delegates to the State Convention, which meets here next Wednesday. The Blaine and Sherman men contested the Grant men at every primary, and there were several serious rows. This was particularly the case at the county primary, which was held at Gilman's Point. Mr. James F. Buckner, Jr., the son of the Collector of Internal Revenue for this district, is the Chairman of the City and County Republican Committee, and he is as strong in his advocacy of Grant as his father was doubtful four years ago, when it was very uncertain who would be nominated by the Republican National Convention. Mr. Buckner hired a room at St. Matthew's, and the room was promptly taken possession of by Mr. Ayres, who is the Republican shepherd charged with the care of the negroes of the county. Mr. Ayres has a bad habit of thinking for himself, and it therefore happens that he is for Blaine. Mr. Buckner and Capt. Silas F. Miller, who makes large fortune during the war by speculating in confiscated cotton, went to the primary with several wagons loaded with roughs. Ayres not permitting these city folk to enter the County Convent on, there was a free fight, during which several persons were hurt, and in which, it is said, Walter Evans, late Republican candidate for Governor, took a hand on the Grant side with a "pepper-box" pistol. While the row was at its height, the Hon. James Speed, who was Lincoln's Attorney-General, arrived and succeeded in restoring order by vigorous pacific appeals. The Blaine men held their own, however, and nominated Blaine men to the Convention The city people held a meeting in the open air, and nominated Grant men to represent the county in the Convention. There is certainly a very strong anti-third term feeling among the Republicans here, and the Hebrews, headed by L. N. Dembitz, are almost unanimous in their opposition to the "man on horseback." This opposition was shown at all of the ward meeting, and it was frequently strong enough to send Sherman or Blaine men to the Convention, and in other wards to send men who were uncommitted. As a rule, the Republican Conventions in this State are great farces, but there is always some kind of a row among the hungry office seekers. At the Convention to be held on Wednesday, there is promise of lissensions which the police may be called upon to quell, for duplicate delegations are coming from all parts of the State.

Grantism in Boston.

Boston Post.

Grantism has no right to show its head in Boston or Massachusetts. It was publicly condemned at Cincinnati four years ago by our own eminent citizens. It had confessedly reduced the body politic so low as to demand desperate remedies for its relief, and the convention then and there fully indorsed the sentiment and the fact. In 1876 not a corporal's guard could be found that dared even name Grant as a possible candidate for a third term. The opposition to him took special form in organizing the Bristow movement, and gave to it prestige and respectability. It was not simply a regard for Bristow that led to it and inspired an early and conspicuous effort to promote his nomination, but its special significance consisted in determining to give Grantism a death-blow by a rally for the former Secretary of the Treasury, against whom the third-term candidate had declared an unrelenting and interminable warfare.

Polar Hayes and the Lobby.

D. Hayes, of Polar Sea fame, hates a lobbyist as the devil hates holy-water. The small-fry fellows who, under some pretext or another, manage to get the privileges of the floor on days when bills they are interested in come up, are his special horror. Well, the doctor was pouring over the Supply bill while it was under discussion the other day, when a voice whispered in his ear that a certain appropriation ought to be stricken out, and it began to expatiate upon the reason why and wherefore. The doctor, without looking around, curtly replied that he did not want to be bothered, and added: "I want men of your class to keep at a distance from me. I'll have you put off the floor if you say another word." The voice became silent instanter, but imagine the dismay a few moments afterwards, when he heard that the voice that had pleaded for the appropriation was actually that of a member of the House, who had been putting in a good word for his own item Dr. Hayes made the amende honorable like a gentleman, but I pity the lobbyist who attempts to whisper in the doctor's ear after this. The recollection of the incident I have just cited will settle the fellow's fate so surely that he will wish that he had never seen the new capital.—

Board of Medical Examiners.

The Board of Medical Examiners, of the State of North Carolina, will meet in the city of Wilmington, on Monday, May 10th, 1880, for the examination of applicants for license.

Without a license from this Board, "no person shall practice medicine or surgery, or any of the branches thereof, or in any case prescribe for the cure of disease for fee or reward."

Furthermore, he "shall not be entitled to sue for or recover, before any magistrate or court in this State, any medical bill for services rendered in the practice of medicine or surgery, or any of the branches thereof." (Laws of N. C., 1858-'59.)

RETURNING FASHIONS.

The Costumes of our Grandmothers' Reproduced on our Streets To-Day.

Cassell's Magazine.

Glancing at the fashion books of fifty and even seventy years ago, it is curious to note how in many points we are returning to the modes then in vogue. Nothing but short dresses were to be seen half a century ago; the skirts were just long enough to show the shoes and boots, and were trimmed with satin roleaux and bias folds. The fashionable colors were Christmas holly green, scarlet, pink, clarence, blue, giraffe yellow, ponceau, camel's hair brown, Indian red, cameleopard yellow, moccasa brown, apricot, olive, peau de serpent, burrage blue, Egyptian sand, Indian red and violet shot with bottle green—for shot silks were coming in then as they are with us now. The January of 1828 was particularly damp and cold, and silk and satin pelisses were the rage, but, like short Princesse dresses, reaching to the hem, with a lace cape over the shoulders. These pelisses were also worn in the evening, cut low in the neck, and showed robings of white satin in front. Shawls and scarf-shawls were coming in also, and feather trimmings found special favor. The hats worn were large, and dress hats were adopted with full evening dress, made of satin and gauze, with blonde, lappets and plumes of ostrich or marabout feathers or floral wreaths, birds of paradise being arranged inside and out. They were placed far back on the head. It is to be hoped that we shall not readopt anything so startling as a hat of paradise yellow, lined with crimson velvet, trimmed with white puffings and yellow ribbon, brocaded black, as worn by a belle of that day. There is much to learn in avoiding past follies. Our dresses have of late clung closely to the figure, but have never as yet attained the scantiness of those times. The skirts were always scanty, as well as short, and trimmed often with one or two gathered flounces, scalloped at the edge, surmounted by one or two rows of straight satin rouleaux; the bodices full and banded, the sleeves large and puffed. Such bodices and puffed sleeves are coming in again, as well as short dresses for evening, which may and very likely will resolve themselves into short princesses, not unlike pelisses.

An Apt Simile.

Count Andrassy is described as given to epigrammatic phrase.. It is said that the Austrain Emperor disliked to lose the Count's services in the Foreign Office, and was only persuaded by Andrassy's statement of the necessity of the re establishment of the bureaucratic order in several branches of that office. "Baron Haymerle," the Count is reported to have said to the Emperor, "is a thorough bureaucrat, and much more capable for the task than myself. Franz Liszat can play the piano well enough, but he cannot tune it."

A London Girl's Luxury.

A London workgirl, who goes to the factory at 6 o'clock in the morning, has a chance to stop at the stand of an oysterman at night as she is going home and buy one oyster. The extravagant ideas of Americans would not permit a girl to do anything of that kind; she would be expected to treat half the Congressional district, says the P. I. man of the New York Herald.

A Future Emperor.

Prince William of Prussia, eldest son of the Crown Prince and future heir to the Empire, is now 21 years old, a few months younger than his betrothed, Princess Victoria of Schleswig-Holstein-Augustenburg. The marriage, which is a love match, is not very much liked by the people, who think the heir-apparent might aspire to a bride of higher rank. The parents of the young man, however, approve the alliance. the Crown Prince having been sorely grieved at Bismark's harsh treatment to the late Duke, the bride's father, when he attempted to assert the rights of succession to the much-coveted duchies of Schleswig-Holstein. Young Prince Wilhelm has grown into a fine young man and has happily overcome the delicacy of his childhood, although the paralytic affection of his left arm gives him an appearance of helplessness probably beyond the actual inconvenience felt by him.

What it Costs us for Smoke.

The New York correspondent of the Troy *Times* says: The amount spent in smoking by some of our citizens is surprising. New York pays more for cigars than for bread, and this is easily seen when individual cigar bills run up to $300 per annum. I know one man who was unable to save anything on an income of $12,000 a year, and who gave among the reasons that it cost him $10 per week for cigars. If all his expenses were at such a rate there could be little chance at accumulation. There are many smokers who average 100 cigars a week. These are the men who build up such fortunes as the Gilseys and others have made. Peter Gilsey landed in this city a poor emigrant. He was a piano-maker, but opened a cigar shop in the Bowery, which his wife tended while he wrought at his trade. From this humble beginning Gilsey became one of the most extensive dealers in the city He had at one time nearly a dozen cigar shops, and he left an estate worth $2,000,000. The Gilsey House is one of his creations, and the splendid establishment known as the Gilsey building, corner of Broadway and Cortlant street, is another. The first Broadway cigar store that reached distinction was John Anderson's. The unfortunate Mary Rogers, better known as "the pretty cigar girl," was in his service, and her tragic end will always be one of the mysteries of New York crime.

Some South Carolina journals speak of what they term a novel temperance movement in that State. The young ladies are to form clubs, all the members of which refuse to recognize socially any young man addicted to the bottle. There is nothing new about the plan. When it was inaugurated in the North some years ago, the principle was "No lips that had touched a bottle shall touch mine." Objection was made to this motto that it did not give a fair chance to those young men brought up by hand.—*Detroit Free Press.*

OUR COUNTY LETTERS.

WAKE SHOULD HAVE AN INFERIOR COURT.

Suggestions Concering the Establishment of The New Court---Good Men must be Appointed.

Since the Criminal Court of this county was abolished, if not before, the establishment of an Inferior Court has been an absolute necessity, if the administration of justice is taken in consideration. This being so, I suppose there is little doubt the court will be organized when the justices meet in May.

An Inferior Court will, if properly officered and conducted, besides sitting in a due and prompt administration of justice will save the county several thousand dollars annually. On the other hand if ignorant or corrupt men should be given the control of the Court, it will be a tax to the County and an abomination.

The court should be composed of good men who love justice and who have a reputation as such, so that when a person is tried before it he will feel that he has had a fair trial. In addition to being good men one member of the court should be a good lawyer, so that there will be few causes for appeals to the Superior Court which will in every case double or treble the expense.

The Solicitor should be the best lawyer who will accept the position, otherwise the State will not have a fair showing in a contest with great lawyers of the Raleigh Bar.

He should be a good lawyer that he may aid the court in determining the law correctly, and he should be a good man as well as a good lawyer, otherwise he will plot and scheme to get business in his court that does not belong there, and prosecuting those who ought not to be prosecuted for trifles, which he will dismiss on payment of costs, a great part of which will be his fee. Experience teacheth.

The clerk should be a man of known integerity and great pobity, his position is one that enables him, if so disposed, to oppress many and extorture much. While the establishment of the court is a necessity, it is also a necessity that it should be used for the public good and not for the emolument of its officers, if for the latter, its abolisment will become as much a necessity as its establishment now is *verbum sap*

When the court is established let defendants and witnesses be required to appear only on such days as they may be tried or examined.

Raleigh, April 15th, 1880.

CHOWAN COUNTY.

EDENTON, N. C., April 13th.—Now that the fishing season has arrived, our county and those adjoining have been doing quite a brisk business. Large quantities of shad and a few rock have been shipped North, the shad bringing the first of the season very good prices; but on account of the large catch recently, the price has declined considerably, rock bringing now as much as 25 cents per pound.

Quite a pleasant party of ladies and gentlemen left for Capehart's fishery Monday, the 13th inst. Among the number were Misses Wood, Claude Paxton, Woodard and Mrs. Roberts; also Messrs. Dickson and Bond, D. & S. Warren, Richard Dillard, Sr., and Dr. Joseph Parker, formerly of Gates county, now of Raleigh. The party were pleasantly entertained by Dr. Capehart and his elegant lady. An Episcopal Church, recently built on the Doctor's farm was consecrated the same day. There was quite a good congregation. Bishop Lyman officiated. Mr. Wood is progressing rapidly with his chery, an engine for the purpose of assisting in hatching purposes having arrived on the 12th. Another letter soon. X.

HARNETT.

HARRINGTON, N. C., April 14.—Last Thursday we had the heaviest snowstorm of the season. It commenced about 12 M., and continued without intermission until night. Had the ground been cold it would doubtless been 9 or 10 inches deep. It was fully three. We also had a small squall on Friday morning. It cleared off, however, and was all melted and gone by night. We had two heavy frosts, but did it not injure the fruit crop to any extent. Some few fields of early wheat that had commenced jointing were injured, but the bulk of the crop was uninjured. Farmers are busy preparing and planting corn. The air is redolent with the perfume of the various brands of commercial fertilizers. More cotton by half will be planted this year, and double the quantity of guano used over last year.

The weather to-day is warm and fair.

WEALTHY MEN.

Names of a Few of the Millionaires.

Probably no city in the world outside of London and Paris can show as much private wealth as the City of New York. The richest man in England at present is the Duke of Westminster, whose income from London property alone is estimated at £400,000. His rural land estate yields some £100,000 more. His total income from real and personal estate aggregates about $3,500,000. Great as is this income it does not come up to the income enjoyed by John Jacob Astor and William H. Vanderbilt, New York's chief millionaires. The Astor fortune, at present real estate values, is estimated at not less than $100,000,000, while Mr. Vanderbilt represents the largest accumulation of private wealth in America. Mr. Vanderbilt's yearly income exceeds $5,000,000. The late Rothschild, of Paris, left a fortune of 1,000,000,000 francs ($200,000,000). It must, however, be remembered that the enormous wealth of the Rothschilds belongs to different members of a house or firm, while William H. Vanderbilt is practically sole owner of the great properties and vast estates bequeathed him by his father. Jay Gould now ranks high among New York millionaires. He is estimated at $25,000,000, and bids fair, if he lives ten or fifteen years longer, to double his present fortune. Taken all in all Jay Gould is probably to-day the shrewdest railroad manager and the boldest speculative operator in these United States.

Edward H. Green represents another great railroad fortune, estimated at over $20,000,000. He is the chief owner of the great Louisville & Nashville combination, and is said to practically control that road. Henry Hilton can be safely put down at $20,000,000. In April 1876, Cornelia M. Stewart, widow of the late A. T. Stewart, transferred to Mr. Hilton all her interest in the firm of A. T. Stewart & Co. Wise investments made during the period of depression have, it is said, greatly swollen Mr Hilton's wealth. Besides the well-known men of wealth at the head of the New York Knickerbocker families, such as the Rhinelanders, Hamersleys, Schemerhorns, Stevenses, Lenoxes, etc., all representing vast landed estates in that city; there are a great number of minor millionaires, worth from one to two millions, who live and die without attracting any particular attention, unless they have something besides money to signalize them. Crossing the Atlantic again, Frankfort-on-the-Main, with a population of about 100,000, is reputed to be the richest city of its size in the whole world. It is asserted that there are one hundred Frankforters worth from $4,000,000 to $5,000,000 each, and two hundred and fifty who are worth $1,000,000 and upward. The city is one of the great banking centers of the globe. Its aggregate banking capital is estimated at $200,000,000—more than one-fourth of which the Rothschilds, whose original and parent house is there, own and control.

Poverty and Distress.

That poverty which produces the greatest distress is not of the purse but of the blood. Deprived of its richness, it becomes scant and watery, a condition termed *anemia* in medical writings. Given this condition, and scrofulous swellings and sores, general and nervous debility, loss of flesh and appetite, weak lungs, throat diseases and consumption, are among the common results. Therefore, if you are a sufferer from thin, poor blood, do not hesitate, but employ Golden Medical Discovery which enriches the blood and radically cures those affections by striking at the root of the evil and removing the cause.

For all bronchial, throat, and lung affections, severe lingering cough, weak lungs, consumption in its early stages, asthma and kindred affections, Dr. Pierce's Golden Medical Discovery is the soverign remedy, and has outrivaled all its competitors. It is harmless in any condition of the system, yet powerful to cure. Druggists sell it.

Seven Springs Iron and Alum Mass

This most excellent remedy is becoming more popular with our people every day. It is one of the few medicines that improves on acquaintance—the more one knows of it, the more its virtues are appreciated. Everybody who has given it a fair trial, speak well of it. Our druggists sell large quantities of it. People are not afraid to use a medicine that they know to be efficient for their ailments, and at the same time harmless in its nature. Read what is so aptly said of it, in another column of this paper. Truth is mighty and will prevail. feb27 tf

Dr. Price's Floral Riches.

This delightful Cologne water is receiving much attention not only from the ladies and gentlemen of refinement and taste, but from professional men generally. It is so gratefully refreshing to the invalid, its odor is so exquisitely delicate and yet so rich and persistent.

WASHINGTON.

YESTERDAY'S PROCEEDINGS OF THE 46TH CONGRESS.

Resolution in regard to Commerce Among the States---Immigration Bill in the House.

SENATE.

WASHINGTON, April 15.—The Vice-President resumed his place as presiding officer of the Senate to-day. Senator McMillan, from the Committee on Commerce, reported with amendments the Senate joint resolution introduced by Cameron, of Pennsylvania, providing for the Commission to consider and report what legislation is needed for the better regulation of commerce among the States, and asked its present consideration. Davis, of West Va. objected. He thought either the Commerce Committee or the Transportation Committee competent to consider such subjects, if any inquiry was necessary. He would oppose the resolution if it came up placed on the calendar. Maxey from the Committee on Post Offices and Post Roads, reported back the bill to designate, classify, and fix salaries of persons in the railway mail service, and asked that the Committee be discharged from its further consideration. A bill on the subject having already been reported, it was so ordered. On motion of Withers, Chairman of the Committee on Pensions pending, and all prior orders, were postponed and the Senate proceeded to consider pension bills on the calendar. Favorably reported.

Bills were passed, granting pensions to the following persons: Thomas W. McAffrey, of Tennessee, Miss Mary Allison, Tenn., Patsy Davenport. The morning hour having expired, the Geneva Award bill in the absence of Thurman, was informally laid aside. On motion of Jones, of Fla., the bill for the erection of public buildings at a cost not to exceed one hundred thousand dollars at Jacksonville, Fla., was taken up and passed, as was also a bill for the relief of George Law, of New York City. The consideration of the Geneva Award bill was then assumed, and Mr. Blaine spoke thereon at great length, arguing that the Insurance companies had no right to claim any part of the Geneva Award for reason that all their losses are much more than covered by enhanced premiums received on account of war risks. Men who paid those enhanced premiumt are entitled to reimbursement rather than the insurance companies. Mr. Blaine said further that this bill had lagged in a most extraordinary manner, ten weeks' having elapsed since its introduction. He thought this Congress deserved and would receive the name of the lazy Congress. After a long and animated debate, in which Blaine, Thurman, and Bayard participated. The Senate without action on the bill adjourned.

HOUSE.

Cox of New Yook, asked leave for an evening session next Thursday evening for the consideration of the immigration bill. He said that the bill was of great importance as the present immigration was unexpected one thousand a day. If typhus followed the Irish famine as in 1847 and was brought hitherto there would be double necessity for providing Castle Grrden, Harts Island Hospital etc, against disease at Gateway. Federal action was now necessary.

Mr. Conger objected as post Huron received a large immigration.

Mr. Cox replied that three-fourth of the immigration at New York went West. He hoped that Mr. Conger would amend the bill if it did not provide his own part, also which however it did the objection was withdrawn and the evening fixed as requested.

Regular order being demanded the Speaker announced the pending question to be upon the passage of the bill reported last night from the Committee of the Whole providing construction fund for the Navy. Without debate the bill was passed as was also the bill to equip an expedition to the Arctic Seas. The morning hour was then dispensed with and the House at 12:30 o'clock went into Committee of the Whole (Whitthorne in the Chair,) on the Indian appropriation bill.

Number of amendments were proposed and there was a great deal of desultory debate, but no important change was made in the bill. At 4:30 o'clock the committee rose without finishing its consideration and the House took recess until 7:30 o'clock. The evening session to be devoted to the consideration of bills reported from the Committee on Naval Affairs.

The St. Petersburg *Dispatch* says: Information from Orenburg states that a long continuation of winter has completely exhausted necessaries of life in that region. Rumors of starvation is daily increasing. Five thousand families cannot obtain sufficient food.

DAILY NEWS

FRIDAY, APRIL 16, 1880.

GEO. C JORDAN, Editor and Propr

IT is said the President will not recall Colonel Mosby, though he thinks he writes too many letters.

WE learn from our exchanges that the peach crop is thought to be seriously injured in all parts of the country, in some places entirely destroyed. The late cold snap was a severe one on all kinds of vegetation.

WE can but rejoice in Mr. Gladstone's triumph over Mr. Disraeli, the famous English Premier. Mr. Gladstone was the true friend of the South during our late war, whilst Mr. Disraeli was our bitter enemy—a "stalwart of the strictest type.

RUMOR says, Lord Dufferin, late Governor General of Canada, will go into the New British Cabinet as Colonial Secretary. Lord Dufferin is a man of marked ability and very popular. Turkey is said to be much troubled about the turn affairs have taken in England.

A CORRESPONDENT of the *Farmer and Mechanic* writing from Edgecombe county nominates Gen. W. R. Cox of Wake for Governor and H. C. Bourne of Edgecombe for Lieutenant Governor. "Several more precincts to hear from yet." Nominations are still in order Send up your candidates.

AMERICAN enterprise is to be found everywhere, an American—English Company has been formed to build a railroad from Cairo Egypt, to Mosul. This will be known as the Palistine Railway. Wont "all aboard for Jerusalem" sound a little irreverent? This progressive age is a non respector of persons and places.

The solid trio Conkling, Cameron and Logan are not harmonizing, it is said, Conkling is for Grant all the time, Cameron is skinning his weather eye for a possible second choice, and Logan discovers himself as a probable Presidential candidate, providing he can carry Illinois. And so the thing works. The Great Third Termer is a millstone around the necks of his friends, a political drag as it were.

ASSOCIATE Justice Field's letter on the Chinese question gives his Presidential boom an upward tendency. He believes in putting the Chinese in America on the same footing as Americans in China—thereby restricting them to the business of foreign commerce. Judge Field is a level headed man and justly enjoys the confidence of his countrymen. He would make a most excellent Chief Magistrate.

BENJ. Franklin Butler Benedict Arnold Mahone is spoken of thusly by the Washington correspondent of the Philadelphia *Telegraph*:

"General Mahone's friends here say that he will lead the future Republican party of Virginia, and that he has received encouragement from many of the leading citizens of the State, who have hitherto affiliated with the Democratic party, to go forward in the work of reform, and that they will fully cooperate with and sustain him."

WE think it is carrying spiritualism a little too far when seven hundred people are sacrificed to appease and propitiate the evil spirits. Our cotemporary the New York *Mail* says:

The horrible brutality of burying alive seven hundred persons in order that a beastly and disgusting drunkard and debauchee, King Theebau of Burmah, according to the superstition of the astrologists, recover from his sickness, is and act of barbarous cruelty which should not be permitted in this age. Our grandiloquently praised nineteenth century civilization gives us the news of this crime almost as soon as it is perpetrated, and yet affords no preventive and no punishment.

THAT most terrible of scourges, the yellow fever is said to have made its appearence at both Memphis and New Orleans.

Is the South to be as the West Indies, the yearly home of this fatal disease? Our people are an imprudent one, and we are sorry to say, lose sight of everything else in their eagerness to make the almighty dollar. A few days ago a lot of feathers were shipped from Memphis that were used by those who had the fever last year. Such as this will continue the fever year after year if the proper steps are not taken to prevent it. A few more years visitation of the fever and the fairest lands of the United States will present the mournful aspect of a deserted country. Imigration will avoid the South as they would the poisonous Upas. God help the fever-stricken people.

MR. TILDEN, says the Washington correspondent of the Philadelphia *Bulletin*, has written a letter to be presented at the New York Democratic Convention at Syracuse declining to be a candidate before the Cincinnati Convention. We are glad Mr. Tilden has done this. His candidacy would bring out all the antagonistic elements of the Democratic party. Whether he is justly to blame or not, for not now occupying the Presidential seat is not for us to say. Whether or not his political skirts are clean we don't propose to discuss at this time. We want a man nominated who will unite the party. A man who will have the confidence of the people. We have such men, and let us nominate them, and we confidently believe the setting sun of the 4th of March next will witness a Democratic President quietly and serenely doing the honors of the White House at our national Capitol.

THE Chicago hotel men are looking forward to the approaching Convention with hungry eyes. An exchange says;

If a man is willing to share a single room with three or five other lodgers, he can get off at the low payment of five dollars per diem, but, if he is so luxurious as to desire these eight-by-ten quarters to himself, he will be called upon to pay thirteen and one-half dollars a day for the extra breathing space. Single beds will be unknown and the miserable delegate will be forced to admit that there is only too much truth in the proverb that politics make strange bed-fellows.

A man who attends the Convention had better go well provided with the sinues of war.

A man will be charged twenty five cents for a long breath and half price for short ones. Chicago atmostphere will be high. Economical men are advised to carry a supply along with them.

THE Raleigh *Observer* publishes a card from Hon. A. M. Waddell declining the candidacy for Congress in his District. Col. Waddell says he does this to allay any discord in the party which might crop out from his remaining in the field. He was a useful member while in Congress, and made himself a favorite with his brother members by his affable manners. The Third District is fortunate in possessing such men as Judge A. A McKoy, Col H. B. Short, Col. Allen, Major C. M. Steadman, Major McClammy and many others we could mention from which to choose a Representative in Congress We hope our friends of the Third, will not allow themselves to be Russellized any more. Every man must do his duty in the November election.

THE price of iron which ran up to such unreasonable figures a few months ago, has come down at least twenty per cent. The Philadelphia *Times* in speaking of this subject and its relation to labor and capital says:

"If both capital and labor could be brought to a sensible appreciation of their mutual interests at an early day, it would be vastly to the advantage of both.

"The result of the corner in iron is a sudden depression in prices that takes away all profits, and a demoralization in labor that threatens to multiply evils upon both employers and employed. It calls upon all to go back and start again on a legitimate basis, and invite consumers to renew their operations and labor to accept just compensation, by the assurance of legitimate prices for legitimate consumers. If this can be done, labor will not be bewildered by the fabulous profits of sudden and fitful booms and a speedy and permanent demand will come for all the iron our mills can supply."

A good many Pennsylvania Mills have stopped work being unable to pay their hands the same prices paid during the late inflated prices. There can no lasting good accrue from the antagonism of capital and labor. Both should pull together. Their interests are identical.

TRADE MARK Seminal Pastilles

An entirely New and positively effective Remedy for the speedy and permanent cure of Seminal Emissions and Impotency by the only true way, viz., Direct Application to the principal Seat of the Disease. The use of the remedy as directed will be pain or inconvenience, and will not interfere with the ordinary pursuits of life. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. There is no humbug about this preparation. Practical observation enables us to positively guarantee that it will give perfect satisfaction. It is commended by the Medical profession to be the most rational manner yet discovered of reaching and curing this very prevalent trouble. The Remedy is put up in neat boxes, of three sizes. No. 1 (lasting a month), $1. No. 2 (sufficient to effect a permanent cure), sealed and secure from observation, $2. No. 3 (a long cure or two months), will stop emissions and restore vigor in the worst cases, $3. Sent by mail, sealed in plain wrappers. Full directions for using accompany each box.

Send for a Descriptive Pamphlet giving Anatomical Illustrations which will convince the most skeptical that they can be cured by themselves, and Testimonials of the Genius of Life, each one of whom is well known. Sent free by mail. Sold by druggists generally. Address

Cuticura

REMEDISE

Have Achieved the most noted success of any Medicines of Modern Times.

Messrs. Weeks & Potter have never doubted the specific properties of Cuticura, Cuticura Resolvent and Cuticura Soap, for the speedy, permanent, and economical cure of Humors of the Blood, Skin and Scalp. They are, however, astonished at their universal success; for it was to be expected that in the hands of some they would fail solely from spasmodic or ignorant use of them.

They are enabled to say without fear of contradiction that no remedies ever achieved in the short space of one year the number of wonderful cures performed by the CUTICURA REMEDIES.

SALT RAHUM,

Covering the Body for Ten Years, Permanently Cured.

LAW OFFICE OF CHAS. HOUGHTON,
17 Congress Street, Boston, Feb 28, 1878.

MESSRS. WEEKS & POTTER: Gentlemen,—I feel it a duty to inform you, and through you all who are interested to know the fact, that a most disagreeable and obstinate case Salt Rheum or Eczema, which has been under my personal observation from its first appearance to the present time,—about ten (10) years,—covering the greater portion of the patient's body and limbs with its peculiar irritating and itching scab, and to which all the known methods of treating such disease had been applied without benefit, has completely disappeared, leaving a clean and healthy skin, under a few days of profuse application of CUTICURA.

I can and do heartily advise all similarly afflicted to try the remedy which has been so effectual in this case.

Very truly yours,
CHAS. HOUGHTON.

Liver Complaint.

And Dyspepsia Treated by the Resolvent, Gains 5 1-2 pounds on One Bottle.

GENTLEMEN,—I have had Liver Complaint and Dyspepsia, with running sores on the side of my neck, for ten years. Doctors did no good. I have been spending for eight years and it did me no good. Everything I ate distressed me. I got reduced from 159 to 132 pounds. At last I tried the RESOLVENT and it helped me right off, and on one bottle I gained five and one-half pounds. It is doing the business, and I am looking for it strong.

Yours truly,
JOHN H. ROY
414 Wabash Ave., Chicago, Ill., Nov. 15, 1878.

NOTE.—Cuticura is admirable assistant in cases of extreme physical weakness, or when the virus of scrofula is known to lurk in the system by the internal use of the Cuticura Resolvent, without doubt the most powerful blood purifier and liver stimulant in the world.

Cuticura Soap is an elegant toilet and medicinal assistant to Cuticura in the treatment of all external ailments. For chapped hands, rough skin and tan, sunburn, and the lesser skin troubles, it is indispensable; as a soap for the toilet, the nursery and bath it is the most elegant, refreshing, and healing before the public.

These great remedies succeed where all others heretofore in use fail because they possess new and original properties never before successfully combined in medicine.

The Cuticura Remedies are prepared by Weeks & Potter, Chemists and Druggists, Boston, and sold by all Druggists. Price of Cuticura small boxes, containing enough large boxes, containing two and one-half times the quantity of small, $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

For Sale.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash; balance on reasonable time.

Valuable City lot For Sale.

On Tuesday the 4th day of May next, at 12 o'clock, I shall sell at public sale, at the court house door in the city of Raleigh, to the highest bidder, FOR CASH, the valuable lot and two story brick store house that was conveyed to Benjamin F. Harris by Benjamin A. Cheatham and James A. Heath, in a mortgage deed bearing date the 31st day of October A. D., 1878, and on record in the office of the Register of Deeds of Wake county. Said store house is situate on the corner of market square, on Wilmington street, fronting market square, and running though from market square to the next street. It is the store house in which B. F. Cheatham & Bro., (and afterwards John A. Cheatham) did business.

Said house and lot will be sold under a decree of the Superior Court of Wake county, subject to the confirmation of court and no possession to be given until the sale of the property is confirmed, and the purchaser complies with the terms of sale. This lot is valuable and buyers of real estate would do well to examine it before the day of sale.

RICHARD W. HARRIS,

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Jos. S. Fisher, president; W. I. P. Ingraham, vice-president; W. Paine, M. D.; C. S. Gaunts, M. D.; H. J. Doucet, M. D.; R. J. Kline, M. D.; J. R. Holcomb, M. NEW GOODS

AT

A. CREECH'S.

JUST IN TIME!
STILL AHEAD!
NEW ARRIVALS!

With just such goods as the people want, and it gives me pleasure to say to thousands of my customers that I have received my spring and Summer stock, which is unusually large and attractive, as each and every department is full from cellar to garret with goods bought by myself in person from the best manufactures and importers in this country.

And allow me to say to you that my Dress Goods Department is well worth your special attention as the assortment is very large and attractive—as it is well filled with goods from low price to fine fabrics, as well as with many new and beautiful styles Dress Goods. Also with Buttons and Trimmings to match.

Piece Goods Department

Is well filled with Cassimers Cashmorets, Tweeds Cottonades and Linen goods, just the goods for spring and summer wear, and will be sold at low prices so as to meet the wants of the people.

My Staple Goods Department

Is in every way complete and no doubt the largest and most complete assortment in the city, and as for selling them at the right prices, Why, I am just the man that does that very thing.

Yankee Notion

And fancy goods department you must not forget, as it is well filled with many new and beautiful goods, that every body wants such as Hosiery, Handkerchiefs, Silk and Lace Neck Ties, Gloves, and Silk Mits, Ribbons, Collars and Cuffs, Hamburg Edgings, Parasols, &c.

Infact thousands of indispensible articles, just the goods for the season.

My Shoe Department

Is one of my specialities. Why Creeche's is the place where thousands of people buy shoes, Mens and Boys, Ladies Misses and Children. Buy shoes at Creech's, as they find the style they want, and at the right prices.

My Hat Department

Is all right and well filled with Mens, Boys, and Childrens, Wool, Felt, and Straw Hats. Be sure to call at Creeche's to buy Hats.

Notice to Country Merchants.

My Wholesale Department

Is full and complete, and well filled with just the goods you want, call and see me before you buy, and I will save you money.

And here allow me to say a few words to my friends and customers, I claim that there is no house that can afford to sell or will sell the same class of goods cheaper than I can, for the following reasons, first, that I have been buying goods from the best houses in this country for the last thirty years, and second, because I have no four or five partners to divide profits with and am perfectly willing to divide profits with my customers, and respectfully ask them to come to Creech's.

RALEIGH MACHINERY AGENCY

WAYNE ALCOTT,

— Manager —
RALEIGH, N. C.

It gives us pleasure to state we have just completed arrangements for handling the Machinery of the established and well known Southern manufacturers, JOHN W. CARDWELL & Co., Richmond Va.

Our specialty from this house will be their

"LITTLE GIANT" HYDRAULIC COTTON PRESS

ITS GREAT POWER.—With it one man can press a bale of cotton of from 400 to 600 pounds in from 6 to 8 minutes' time, and do it with ease.

ITS QUICKNESS.—A man can press a bale in from 6 to 8 minutes' time, and in 1 minute after, the bale is out, the press is ready for the next.

ITS DURABILITY.—There is neither grinding or rubbing in friction its operation, as in the screw press; it is not liable to wear out for want of oil or attention.

ITS SIMPLICITY and the ease which it is operated by ordinary plantation hands; the ease and speed with with which it is put in position for receiving cotton for the next bale, after one has been turned out—the operation consisting in simply turning a cock, which allows the water to flow back to the tub or tank and the bottom or follower block to sink down to its position for receiving the cotton for packing the next bale. A half barrel of water will pack many bales.

ECONOMY OF SPACE. It takes but a small amount of space for its working—8 x 10 feet being abundant room for it to work in.

ITS TOTAL INDEPENDENCY OF ALL SURROUNDING OBJECTS—requiring neither bracing nor expensive foundations, working immediately under the floor of the gin or in the open field.

IT IS THE ONLY PRESS within our knowledge with which one man or boy can press a bale of ordinary size from 400 to 600 pounds; and it is equally adapted to steam, water or horse-power, but for ordinary plantation use we have not found any one who considered it desirable to use power, as the packing is so easily and quickly done by hand, and at so great saving of trouble and expense.

THE CONVENIENCE with which cotton can be put into the box, as there is no obstruction above or about the top of the box to interfere with the operation.

THE POWER being applied in a direct line with the resistance of the cotton packed there is but little friction, and, as a natural consequence, but little wear. We are fully satisfied that our Little Giant Press will outwear any two presses of any other kind in the market. These and many other reasons can be given why the "Little Giant" is not only the best but cheapest press on the market, and we would be glad to have you give it a trial.

A press can be seen at our Machinery Warehouse. Thousands
